

EYEMED PROVIDER SEARCH

How can I find an EyeMed Vision Care network provider?

Provider information is available on EyeMed's website, www.eyemedvisioncare.com
Here's how to use the website:

- On the website home page, use the **Members** drop-down arrow at the top of the page and select **Find An Eye Doctor**.
- On the **Provider Locator** page, under **Begin your Search**, enter your zip code in the top box
- In the **Choose Network** box, use the pull-down menu and click the **Select** option.
- You can now click the **Get Results** link for a list of providers in the Select Network, arranged by the number of miles from your zip code.
- Or, you can use the pull-down menu under **What else is important?** to choose additional criteria for your search.
- Or, you can click on the **Advanced Search** link to bring up a page where you can put in even more criteria for the search. PLEASE NOTE: Once the advanced page appears, you will need to use the **Choose Network** pull-down menu and click on **Select** again. That will ensure the correct parameters for our plan are applied to your search.

How do I register for an EyeMed account?

You can register for a personal account on the EyeMed website.

- In the **Members** drop-down, click the **Member Login** link.
- On the next screen, under the green **Login** box, click on the **Create an account** link.
- Follow instructions for registration.

PLEASE NOTE: **Do not** use the "Last 4 digits of SSN" field, as some participants may not have SSNs in the EyeMed system. In the "Member ID" field, enter your nine-digit SSN without any dashes.
