Submitting expenses and filing claims

MyAmeriflex Portal allows you to enter new claims and expenses, as well as view and edit pending claims. If you have receipts or documentation to substantiate your claim, you can attach these to expedite the reimbursement process.

What is the difference between a claim and expense?

- **Claim.** Claims are simply reimbursement requests submitted for costs incurred when receiving eligible services, products, or procedures.
- **Expense.** Expenses are used to track & manage your medical, dental, vision, prescription, and other potentially eligible expenses. Expenses can be manually entered by you, or can also be automated fed into your profile via electronic data feeds from your insurance carrier. Once entered, expenses can be submitted for reimbursement (just like a claim). Expenses can be submitted now or at a later date.

Submitting a claim

To enter a claim and request reimbursement, open the *submit claim* page and complete the form. Be sure to upload a receipt image if you have one. You can click *browse* to navigate to the file, or you can drag and drop from your computer. Click *submit* to send the request for processing.
