

Stark County **Parenting Time Order Program**

Being a **responsible father** is not just about financially supporting your child, it is also about being an involved, active parent who plays a daily part in your child's life.

Non-custodial parents who have been denied parenting time with their child can now apply to receive services to establish or enforce parenting time.

If you have been denied parenting time and cannot afford legal assistance to establish a parenting time order in court or enforce compliance with an existing order, the **Parenting Time Order Program** may be able to help.
