Meeting Minutes

CHIP strategy committee work updates • #1- Digital Platform for SDOH • #2- Digital Wellness and Safety • #3- Behavioral Health Supports for school staff within their school districts • #4 Formalized partnerships between behavioral health providers and medical offices/urgent cares • #5- Guaranteed funding for addressing non-treatment barriers for behavioral health access Meetings continue for each committee usually monthly or as needed.	• Committees holding regular meetings and determining what is needed to collect data and complete strategies • #1 Dr. Mader collect data in work that has been done previously on this. • #2 No interest from districts for no cell phone policies so had to pivot strategy focus. OH YES! data saying 70% students saying parent are not giving them guidance on safe phone usage and only 30% of students get recommended amount of sleep. Landed on digital wellness and how to see what is being done currently and what we can do in addition. Boston Children's is researching ACEs and electronic misuse. Excited to promote this and have engagement with educated. Aiming to have better access to digital wellness and help create safe practices for all. • #3 Pilot with schools for mental wellness in schools in the fall. No information at the Summit. • #4 Recognize resources in community to formalize partnerships that outlines responsibilities of each entity. Where does information exist around what barriers exist for all entities to get on same page. Survey sent out to agencies. Potentially promote at HIS to get more participation and information. Initiative in Ohio to create Universal Release Form. Coming up with language to ensure everyone can make their patients feel safe and protecting their information and making sure language works for all agencies.	
---	--	--

Meeting Minutes

	#5 Lots of level setting to define guaranteed funding and what is being asked of the group. What are the barriers to start with and prioritize the based on the community needs. Assess what already exists and identify if this is enough information. Survey was necessary to move forward. Distribute later this month. Determining agencies that will receive survey and how to collect information. Hope to identify initiatives we can build collaboration around and equip funders with evidence-based data to help funders make their decision focused on mental health. CMOR create survey and do analysis for it. Reminder this is year 2 of three-year plan. Look at next step which will be to start CHA. What is it we are going to do to update CHA, what do we need around work we are doing now, and decide how comprehensive we go on update on the CHA and what group we will be working with again.	
2025 CHA- - What updates to include? Stark Poll, focus groups or other updates - Need to start by end of 2024/early 2025	- Begin having conversation in September about what we didn't have previously to support work we do. - Complete evaluation of what we are doing to meet our CHA process. Evaluation and assessments during first two years, and begin implementation in third year. Does not have to be super comprehensive, but need to evaluate what we have done and what we are continuing to do to meet our goals.	

Meeting Minutes

Announcements/Updates- all	• Terri- Partnering with schools for school food program and Akron Children's Hospital to do talks each week with students for about 6 weeks. Turned outreach coordinator and added resource coordinator responsibilities to help assist residents with what they might need and send them for referrals or provide them with what they need. • Eric- expansion in Massillon Open House will be October 8 at 11:30AM. Will be sending out more information closer to the event. Inviting as many people as they can get to promote bringing healthcare back to Massillon. • Julie- received funding form United Way to hire someone in shelters to assist with families. Working with CommQuest on a pilot project to bring behavioral health services into shelters. • Elaine- Partner with as many non-profits and community organizations to integrate care and partner with the community effectively. Work with various community organizations that need care within their facilities. Prescence in 35 schools in the community and looking to integrate for school based mental healthcare. In process of big transformation by expanding Canton offices in late 2025 summer. Expanding recovery campus in Massillon. More information to follow on these expansions. Service team is expanding to help ensure	•
